BOLLO

SPEAK MORE. FEAR LESS.

An AI-powered English-speaking and communication coach

Designed for Indian students and young professionals building fluency, pronunciation, vocabulary, and communication confidence.

LIVE GROQ COACH + CHAINED TURNS VERIFIED

PROBLEM

Many students and young professionals, particularly from rural and Tier 2 and Tier 3 cities, understand English but lack confidence and opportunities to practise speaking. This can affect interviews, group discussions, and professional communication.

SOLUTION

Bollo provides an interactive AI-powered environment for practical communication practice, personalised feedback, and confidence building. Learners can speak or type, receive a conversational response, and continue with context.

KEY FEATURES

AI SPEAKING COACH

Voice or text practice with conversational AI responses and chained turns.

SPEECH + FEEDBACK

Gnani Prisma transcription, with useful vocabulary and communication corrections.

GROUP DISCUSSION ARENA

A guided room preview for practising viewpoints; live group sessions are not available yet.

INTERVIEW + PROGRESS

Interview Practice is planned. The progress dashboard currently displays sample activity.

TECHNOLOGY

React · Vite · TypeScript · Tailwind CSS · FastAPI · Python

Groq API · Gnani Prisma speech-to-text · Gnani Timbre text-to-speech

VISION

Make effective communication practice accessible regardless of a person's background, location, or access to traditional coaching.

BOLLO - SPEAK MORE. FEAR LESS.
